SUMMARY

Entry-level SAP MM & FICO Functional Consultant with Henry Harvin certification and hands-on S/4HANA exposure, combined with 1.5+ years of professional experience in product data operations and enterprise system implementation. Skilled in Procure-to-Pay (P2P), GL/AP/AR configuration, client onboarding on HRMS/CRM platforms, and cross-functional stakeholder management. Delivered 100% data integrity during system migrations and consistently exceeded SLA accuracy targets. Strong reporting foundation with Excel and Power BI.

EXPERIENCE

Implementation Executive

Dec 2025 – Jan 2026

Communities Heritage Ltd (CHL)

Hyderabad, India

- Led end-to-end onboarding of corporate clients onto HRMS and CRM platforms, managing system configuration, user training, and go-live support for multiple enterprise accounts simultaneously.
- Executed bulk data migration for 500+ employee attendance and shift records using Excel, achieving 100% data integrity with zero rollback incidents across all migration batches.
- Resolved critical Asset Management logic errors by collaborating with engineering teams, diagnosing root causes and verifying fixes – reducing estimated client onboarding time by 30%.
- Acted as primary SPOC for 5+ enterprise clients; translated user requirements into structured functional specifications and coordinated with the product team to accelerate feature delivery.
- Maintained and updated SOPs and process documentation post-resolution, reducing repeat escalations and improving onboarding consistency across future client accounts.

Process Associate – Product Data Operations

Jul 2024 – Dec 2025

Genpact | Client: Meta / Instagram

Hyderabad, India

- Processed and quality-validated large volumes of product catalogue data for Meta and Instagram, maintaining >99% accuracy and meeting SLA targets across 4 consecutive performance quarters.
- Conducted SOP-based quality audits on 1,000+ daily records, identifying and flagging data anomalies before they reached downstream production pipelines.
- Partnered with cross-functional teams to diagnose and resolve recurring workflow bottlenecks, contributing to a measurable reduction in average processing cycle time.
- Built Excel-based operational dashboards to track daily output metrics and SLA compliance, improving real-time visibility for team leadership and streamlining weekly reporting.
- Contributed to workflow improvement initiatives and earned consistent above-target ratings in quarterly performance reviews for accuracy and process adherence.

SAP TRAINING PROJECTS

SAP MM – Procure-to-Pay Implementation

Aug – Oct 2025

S/4HANA · ME51N · ME21N · MIGO · MIRO · Fiori · MM-FI Integration

- Configured complete P2P cycle: Purchase Requisition (ME51N) → Purchase Order (ME21N) → Goods Receipt (MIGO) → Invoice Verification (MIRO), with automatic account determination and GR/IR clearing.
- Set up Vendor Master, Material Master, Purchasing Organisation, Plant, and Storage Location enterprise structures from scratch in S/4HANA sandbox.
- Verified MM-FI integration by reviewing automatic financial postings from goods movements and invoice verification, and examined account determination settings in OBYC.

SAP FICO – Financial Accounting Configuration

Aug – Oct 2025

S/4HANA · GL · AP · AR · Asset Accounting · MM-FI Integration

- Configured Chart of Accounts, Company Code settings, fiscal year variants, posting periods, and document number ranges in S/4HANA.
- Practised AP processing (vendor invoices, payment runs, reconciliation), AR processing (customer invoicing, clearing), and basic Asset Accounting setup.
- Executed MM-FI integration scenarios with automatic postings from goods receipts and invoice verification; performed month-end bank reconciliation procedures.

EDUCATION

Kakatiya Institute of Technology & Science <i>B.Tech – Electronics & Communication Engineering</i>	Warangal, India 2020 – 2024
Delhi Public School <i>Class XII</i>	Warangal, India 2020
Greenwood High School <i>Class X</i>	Warangal, India 2018

INTERNSHIPS

Graduate Engineering Trainee – Instrumentation <i>AGI Greenpac</i> <ul style="list-style-type: none">Performed diagnostics and calibration of industrial control loops; assisted in deploying automation solutions that reduced unplanned equipment downtime.	Jan – Mar 2024 Hyderabad, India
AI Intern <i>SmartKnower</i> <ul style="list-style-type: none">Built Python-based supervised ML models covering classification and regression using scikit-learn and pandas.	Jun – Aug 2022 Remote
Data Science & Cloud Intern <i>3Cortex</i> <ul style="list-style-type: none">Completed hands-on Data Analysis and Visualisation projects with exposure to basic cloud deployment workflows.	Jan – Aug 2022 Remote

ACADEMIC PROJECTS

Deep Learning Model for Traffic Sign Recognition <i>Python · TensorFlow · CNN · OpenCV</i> <ul style="list-style-type: none">Trained a CNN for real-time traffic sign detection and classification across 43 sign categories, achieving high accuracy on the GTSRB benchmark dataset.Implemented image preprocessing and augmentation pipelines using OpenCV to improve model generalisation across varied lighting and environmental conditions.	Jul 2023 – May 2024
Multiple Laser Security System <i>Arduino · GSM SIM 900A · C++</i> <ul style="list-style-type: none">Designed a real-time multi-laser intrusion detection system with GSM-based SMS alerts; triggered within 200ms of intrusion detection during live testing.Built adaptable hardware and software architecture suitable for residential and commercial security deployments.	Dec 2022 – May 2023

TECHNICAL SKILLS

SAP: MM (P2P, Procurement, Inventory, Vendor & Material Master), FICO (GL, AP, AR, Invoice Verification, Asset Accounting), S/4HANA (Fiori, MM–FI Integration, Business Partner, OBYC)

Data & Reporting: Microsoft Excel (Advanced – Pivot Tables, VLOOKUP, Macros, Dashboards), Power BI, Tableau, SQL (Intermediate)

Programming: Python (scikit-learn, pandas, NumPy), Linux (Basic)

Other: HRMS/CRM Administration, Data Validation & Migration, SOP Development, Stakeholder Management, Cross-functional Coordination

CERTIFICATIONS

SAP MM & FICO with S/4HANA – Henry Harvin | **Microsoft Advanced Excel** – Coursera

Data Analytics for Business – Coursera | **Front End Development** – Coursera

LEADERSHIP & ACTIVITIES

President, HackerRank Tech Club: Led college technical club for 2 years, organising 10+ coding challenges and workshops for 200+ student members.

Event Organiser, Technical Fest “Sumshodini”: Coordinated logistics and participant management for the annual technical festival with 500+ participants across multiple competitions.
